

TAXES CALL FOR ACTION

(Continued from Page One.)

and others whose opinions are not shared by the tariff makers, but who are disturbed by the fact that the tariff is not being made in the best interests of the country. The tariff is a subject which the Republicans would not touch.

To work out any kind of tariff would take a great deal of time and a great deal of money. The tariff is a subject which the Republicans would not touch.

Tax Situation.

Practically the same situation exists with regard to taxes. Efforts will surely be made to get relief from tax burdens and it will be more difficult for the Republicans to ignore the tax question than the tariff. It is fully expected, for instance, that the president will in his message take occasion to approve the suggestions for a reduction of taxation to be made by Secretary Houston in his annual report of the treasury department. If those suggestions meet with presidential approval, it is thought the Republican majority will be compelled at least to begin hearings and make a start on the question. It is too long delayed or swallowed up in the mass of questions to be coming up in the extra session.

hear his story so that they in turn will follow his example and be restored to health.

Could Not Work for Two Years.

"I had rheumatism, as bad as anyone could, and had not worked for two years. May, 1917 was the blackest month of my life. Both my legs and arms swelled to double their size and I was taken to the hospital. I got no better; doctors and medicines had no effect."

Enlisted At Camp Devens.

"No one knows how I suffered, until I read about 'Neutrons Prescription 99' and got a bottle. Right away I improved; the swelling all left my arms and legs. What a relief after all the pain and misery I had gone through. Fully recovered in August I enlisted, and served to the end of the war, with never a return of Rheumatism."

No One Need Give Up Hope.

"Neutrons Prescription 99" cured me where doctors and hospitals failed, and I do not want any one to give up hope until they have tried the wonderful preparation. I am a living proof of what it will do for others."

There is no excuse why anyone should suffer with Rheumatism. Go to your Druggist today, and get a bottle of "Neutrons Prescription 99". Rid your system of rheumatic poisons forever.

What Price Policy?

Some selection of policy will be expected from the Republican leadership as soon as the session opens next week, for the pressure from all parts of the country seems to be growing for some kind of an emergency restriction to take care of the budgetary situation.

The suggestion has been made that instead of adopting a policy which would enable the treasury department to exercise discretion in the individual cases of three emergency needs, a post-ponement of a restriction be adopted, postponing the moment of all decisions to the time of the payment of 1921 taxes. The Republicans would prefer to tackle the whole tax question at once in the extra session of congress but they

now are expected to permit the passage of an emergency restriction. The treasury department is expected to the idea but it is doubtful whether President Wilson would be justified in exercising a veto if congress took full responsibility for the postponement and the consequent effect upon the government's resources.
